Farm Tools Machete

Technical Specification :

Directly produce farm tools farm tools machete, so we will guarantee you high quality products at a competitive price

Mature technology and equipment will ensure your timely delivery and the best quality products.

Thickness 1.45~1.7mm

We are a professional farm tools machete manufacturer for many years.

All tools of different sizes are forged from high-quality steel.

This kind of scimitar is light, easy to carry, comfortable and ergonomic.

Mainly used for sugarcane harvesting in agriculture.

We guarantee that the goods are made of the best materials and first-class craftsmanship, are brand new, and comply with the quality, specifications and performance stipulated in the contract in all aspects.

We can guarantee that the parts that are not easily damaged will be sent to you at the time of shipment.

Our sales manager will be online 24 hours, when we receive your needs, we will provide you with answers and solutions in time.

The scimitar is formed by hydraulic forming of the rail steel plate by a punching machine, and then it is finished by polishing and blackening. There are different models of these machetes according to the style of the farm tools machete.
