

Product Name :
Carbon Steel Forged Wood Handle

Product Code :
HAND-WOD50002

Description :

Carbon Steel Forged Wood Handle

Technical Specification :

The classic shape. This axe has a longer cutting edge and a larger cutting range. The axe is slightly thinner, which is conducive to cutting. It has high handling and directivity. It is suitable for woodworking, cutting and carving. At the same time, this product is also a good choice for outdoor camping tools.

The wood handle axe is repeatedly forged with high-quality carbon structural steel to increase the density and emphasis of the carbon steel, which can increase the strength of the axe, increase the hardness, and lasting sharpness.
